

RECERTIFICATION AUTHORIZATION FORM

Recalibration Interval Date:

Please indicate the recalibration interval that you would like to be on your certification report. ISO 17025 prohibits us from prescribing calibration intervals, however, our manufacturer recommends 1 year recalibration intervals.

Note: Work cannot be completed until the calibration interval is determined.

Thermco Products calibration method uses the instruments tolerance when deciding the pass/fail of any calibration.

Liquid in Glass Thermometers

ITEM	S/N & MODEL #	CALIBRATION TEST TEMPERATURES Example... -20, 0, 4, 25 °C or °F	CALIBRATION INTERVAL 1 or 2 Years
